

Steam Head Configurations

Jiffy® Steamer supplies a selection of steam heads that are compatible and interchangeable with most “J” series model Jiffy® Steamers. This chart represents an overview of the steam heads available. Please indicate which steam head configuration best fits your application.

The hose length for each model may vary. J-2® and J-2000® hose attachments are no longer than 5.5 feet. The J-4000® hose attachments may be either 5.5 feet (models J-4000®, J-4000B®, J-4000C®, J-4000I, J-4000M® and J-4000W®), or 7.5 feet (models J-4000A®, J-4000D®, J-4000DM® and J-4000I). For custom attachment requirements, please contact our customer care team.
